miconpc.com Think beyond the box.

All drivers and most programs are pre-installed on your computer when it leaves the miconpc.com factory. You do not need to re-install them unless you re-load your operating system or are experiencing technical difficulties. You must exit all other programs before installing these drivers.

Install Install all 6 drivers at once!

Install  Nvidia Video Driver - 16MB Vanta

Install  VIA ATA100 IDE Driver

Install  Aztech Modem Driver (-00)

Install  AMD 751/761 Chipset Update

Install  Integrated Sound Driver

Install  Microsoft Shutdown Update

Click the "Install all" button to install all the drivers shown on this screen at once.

The "Install all" option can take several minutes to complete. Do not disturb the system during this time!

When you are prompted to restart, click the "Yes" button.

This CD also includes Adaptec ECDC, WinDVD and Norton AntiVirus. Click the help button for more information.
